[Not Too Late to Consolidate with the May 19 Statewide Special Election](#)

A Statewide Special Election will be held May 19 at which Californians will vote on measures allowing the state to borrow and shift funds to pay for parts of the budget.

If your city is interested in consolidating a local special election with the May 19 election, it may not be too late. While the election code states the deadline is E-88 (Feb. 20), it has been determined that county registrar's have authority to extend this deadline.

Contact your county registrar to determine if your county's deadline has been extended. For example, the Orange County Registrar has established Mar. 6 as the deadline for submitting resolutions.
